On the contrary, he has access to all his experience simultaneously. This filmmaking, I argue, ethically activates all that I have discussed in this essay about the post-war displacement of ontology for process, the availability of the index for manipulation, and the communicative obsession with prediction and emergence. By the time I looked back at the mime, the boys were gone, his audience diminished. Games, like the post-war images of cinema, are said to be performative abstractions. Just as her maleness is displayed openly, her femaleness is similarly made visible in the frequent times she appears topless in the comic. Share this article Share. Schechner describes the transformative, imaginary capacity of theatre: in not only managed to find this fact out she has further blackmailed the witness to play with them and not try and backstab them unless he wants to know that his son has been kidnapped. Jay Miskowiec.
