However, when it comes to translating an English text into the Albanian language, in several occasions the usage of the punctuation mark does not coincide when transmitted from the source language into the target one. There is great suffering related to sexual identity and sexual experimentation, including loneliness, abuse, self-hate and suicide. Ariel classified the two types of ambiguity being discussed, that is semantic and pragmatic, based on their dependence in the context.

No one claims to have been deprived of all the good things they might have experienced. However, I think context matters in all pastoral approaches. Some of the teachers and administrators - either clerical or consecrated - were the most rigid, unbending, cruel people that I have ever met in my life.
