Annie Medina. It is ideally suited for navigating obstacle courses, since as a herding dog it is reactive to the handler's body language and willing to work accurately at a distance from the handler. In the 19th century, New South Wales cattle farmer Thomas Hall crossed the dogs used by drovers in his parents' home county, Northumberland with dingoes he had tamed.

June 12, pm. At 13, he does not have that much longer. Training is separated into two areas called 'environmental assessment', such as paranoia and hallucinations, and 'signaling behaviors', including injurious behavior, guiding the owner away from a stressful situation or retrieving objects.
