The hubris of state officials, planners, and experts, Scott suggests, leads them to accept abstract, technical knowledge uncritically and to dismiss local, practical know-how and skills, or me;amtis as he refers to it, as backward and irrelevant. The suggestions from the participants have been invaluable.

At first, they wanted to practise direct forms of democracy and were not satisfied with the representative models embraced in the cooperative statute. The second striking feature is the appearance of a worldwide civil society defined as the sphere of transnational activities and relations created by collective actors social movements, civil society networks and organizations that are independent of governments and private companies, functioning outside the state and the markets.
