Was what we currently identify as our most reliable scientific knowledge inevitable, that is, necessary under some conditions? Reconfiguring underdetermination, and the benefits and risks of epistemic pluralism in historical sciences. The results of these meetings will then be archived in the digital environment of the AIME site, and will be subject to various responses.

In contrast to Europeanization studies, our contention is that EPOs are not Aron et F. Diaspora has to be recognized by home countries as invested capital whose dividends should be reaped. AIME is in no way responsible for these interruptions and consequences that may arise for users or any third parties.

The second column contains information on documentation. In the majority of SANSAs members were in the humanities and social sciences field, today the managerial, executive and administrative field has overtaken humanities and social sciences in terms of the number of SANSAs members in this field⁶.
