With so much at stake—potential financial losses, compromised brand reputations, unauthorized access to operational capital and proprietary information, and possible regulatory violations—taking no action cannot be an option. Walgreens will open up 12 digital health corners in stores that will sell health care related tools and instruments, while also gaining a lot more data about their customers. A good strategic plan for identifying top-performing employees can mean that instead of a drawn-out talent search for managerial talent outside the company, a firm can find managers by drawing on the talent and expertise being developed within its own walls. This will help attract employees who align with an employer. Bankers, attorneys, accountants and tax professionals know the family, the business, and the legal and tax ramifications the company and family will likely face in the future. Sometimes the simple act of paying a registration can be all the motivation needed to get your running or walking back on track—figuratively and literally. So first they say they are going to get into health care recently naming well known has been lots of excitement over the Texas decision ruling the ACA is unconstitutional. To comply with these requirements, an

employer must consider both the incentives it is offering as well as the workplace culture around wellness initiatives.
